DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 4 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The wording of claim 4 is unclear. The term "substituted phenyl" does appear in the R10 definition, and hence it could refer to exactly and just that. However, the last R10 choice is, technically, a substituted phenyl, although it is not designated as such, and perhaps is not considered as such because it is listed separately rather than being subsumed into substituted phenyl. Thus, it is unclear if that last choice (moiety with Z1 and Z) is included in claim 4.

Specification

The parentage is imprecise. It does not convey the fact that the parent case is a 371 of the PCT application.

The abstract is too vague. Suggested is Formula IIA, plus the definitions for R1 (the four structures (i)-(iv)) and for R10.
